

PRODUCT GUIDE

PRACTICAL COMMUNICATION SOLUTIONS

YOUR #1 SOURCE FOR RADIO ACCESSORIES!

CODE RED HEADSETS, the only source you will need for your radio communication accessories. Code Red has been providing business radio users with high quality audio solutions since 1999.

We offer a wide range of 2 way radio accessories to meet any requirement. These include listen only earpieces, molded earpieces, surveillance microphones, ear microphones, speaker microphones, replacement radio batteries and battery chargers. Connectors are available for Motorola 2 way radios, Kenwood 2 way radios, Icom 2 way radios, Vertex 2 way radios and more.

Our clients include police departments, SWAT teams, military, casinos, hotels/resorts, retail stores, commercial property managers, and security teams.

Our Industry Applications include:

- Police, Fire and Hazmat Communications
- Tactical Team Communications
- Correctional Facilities
- Casinos, Hotels and Hospitality Communications
- Security and Surveillance Communications
- Schools, Universities and Church Communications
- Airsoft and Paintball Communications
- Hospital Communications
- Airport Communications
- Construction Communications
- Manufacturing and Distribution Communications
- Correctional Facilities
- Restaurant and Nightclub Communications
- Retail Communications

CODE RED HEADSETS SHOULDER SPEAKER MICS HAVE STRONG SWIVEL CLIPS, HEAVY DUTY STRAIN RELIEF CORDS AND WORK WITH OUR 3.5MM LISTEN ONLY EARPIECES.

SIGNAL 21
Shoulder Speaker Microphone

Push To Talk Button.

Don't forget to order an Earpiece!

3.5 mm Earpiece audio port.

DIMENSIONS:
2.25" Tall
2.25" Wide
1" Deep

Heavy duty coiled cord.

SIGNAL 21-MID

“This product is the best on the market. It has survived 3 tours in Iraq and been to every corner of the Earth. I have yet to find a better product out there.”
Adam
Oklahoma, OK

Listen only earpiece 3.5mm audio port.

Choose from our accessory earpieces on Page 4-5.

- » Made rugged to withstand water, wind, dust and is impact resistant.
- » Heavy-duty strain relief means longer service and less down time.
- » Kevlar reinforced cable guarantees reliability.
- » Fits in the palm of your hand.
- » Covered 3.5 mm audio jack allows private conversations to be diverted to your ear.
- » Lightweight at only 3.6 ounces.

HOTSHOT WATERPROOF SPEAKER MICROPHONE

- » Waterproof speaker microphone for high moisture applications where standard microphones would fail.
- » Protected against dust and liquid. High quality speaker and microphone with large PTT. IP67 rated for water proof.
- » Perfect for fire, search & rescue, watercraft, and first responders.

BLUELINK WIRELESS SPEAKER MIC

Talk time is up to 10 hours. The high quality directional microphone transmits clearly every time. Heavy duty rotating clothing clip can be attached to clothing or gear.

Has a built in 3.5mm earpiece port for additional privacy and security. Operational range of up to 30' from your 2way radio. Includes AC charging cord and manual.

Measures 2.75"H x 2"W x 0.75"D.
Weighs less than 5 ounces.

CODE RED HEADSETS LISTEN ONLY EARPIECES ARE LOW PROFILE AND HAVE HIGH QUALITY KEVLAR REINFORCED COILED CORDS, METAL CLOTHING CLIPS AND FLEXIBLE EARPIECES.

CONNECTOR CHOICES:

2.5mm - Normally used with Kenwood and Harris MaCom radios and speaker mics.

3.5mm - Normally used with Motorola radios and speaker mics.

3.5mm threaded (M2) - Normally used with Motorola radios and speaker mics.

CORD LENGTH CHOICES: 14" or 26"

**SILENT
Clear Tube Earpiece**

Comes with a Bonus Pack of earpiece accessories (pictured below). The Silent Earpiece has field replaceable components.

SILENT BONUS PACK

SILENT CLEAR TUBE EARPIECE

“ I have been able to use the new earpiece for a couple weeks now on shift and I love it. I've been using earpieces out on the road for over a year now. The silent is my 3rd different brand earpiece I've tried and to this point, my absolute favorite...it's definitely something I'd recommend for law enforcement use!

**Eric K.
Linden, MI**

CREW

Swivel Hook Earpiece

The swivel earpiece comfortably fits over either ear and can be easily sanitized between multiple users.

TANGO

Clear Tube Earpiece

Affordable earpiece for the budget oriented. The clear tube is replaceable and compatible with molded earpieces.

GUARD

Soft Hook Earpiece

Soft flexible rubber ear hook can be worn on either ear. Replaceable foam ear covers available.

SHIELD

D-Ring Earpiece

D-Ring earpiece reinforced with Kevlar for increased durability and reliability. The D-Ring versatile design allows it to be worn on either ear.

Our Signal 21 speaker microphone uses a 14" earpiece with a 3.5mm connector.

The audio port for most speaker microphones is typically located here.

SHIELD 3.5mm

“ This piece stays comfortably secured to the ear and provides clear audio without distorting my voice. The Shield does not fall off when running or moving around.

James G
Staten Island, NY

CODE RED HEADSETS LOW PROFILE MICS HAVE HIGH QUALITY KEVLAR REINFORCED CORDS, METAL CLOTHING CLIPS, AND PLIABLE EARPIECES.

ONE WIRE

SEE CONNECTOR CHART ON PAGE 14-15

WATCHMAN

One-wire microphone with softhook earpiece and a push-to-talk. The Watchman earpiece fits over the ear and has a replaceable foam eartip cover.

ONE WIRE

SEE CONNECTOR CHART ON PAGE 14-15

WATSON

One-wire microphone with swivel hook plastic earpiece and a push-to-talk. The Watson has a hygienic style earpiece that rests over the ear with nothing inserted into the ear.

ONE WIRE

SEE CONNECTOR CHART ON PAGE 14-15

RECRUIT

One-wire microphone with clear tube earpiece and a push-to-talk. The Recruit is great for those with tight budgets.

ONE WIRE

SEE CONNECTOR CHART ON PAGE 14-15

QUEST

One-wire microphone with D-ring style earpiece that slips over the ear. Nothing inserts into the ear.

Ear Molds and other accessories for clear tube mics are on Page 11.

ONE WIRE

SEE CONNECTOR CHART ON PAGE 14-15

Ear Molds and other accessories for clear tube mics are on Page 11.

SHERLOCK

One-wire microphone with a clear tube earpiece and a push-to-talk. The Sherlock has field replaceable earpiece components. Available as Quick Disconnect.

SHERLOCK-K

“ I switched from the Signal 21 Speaker Mic to The Sherlock Lapel Mic. It's great to listen for confidential information without the info being broadcast to the public. It's also helpful since I can keep my handheld radio on and use my vehicle radio without any feedback and can tell if I transmit clear or if I stepped on someone while transmitting. Great and comfortable piece of equipment.

Kenneth T.
Mission Viejo, CA

We have Quick Disconnect mics for multi-pin radios. See our website for more selection.

TWO WIRE

SEE CONNECTOR CHART ON PAGE 14-15

INVESTIGATOR

2-Wire microphone with a clear tube earpiece and a push-to-talk with a sturdy clothing clip. The Investigator has a comfortable 2-wire design with a more generous cord length. It has field replaceable earpiece components.

TACTICAL HEADSETS FOR WORK,
TACTICAL TRAINING AND TACTICAL SPORTS.

- » Cable reinforced with Kevlar for durability.
- » Heavy duty 360° metal clip.
- » Adjustable behind-the-head strap for ideal fit.
- » Exceptional audio quality.
- » Modular radio cord can be swapped with a different radio connector.
- » Preferred by: Public Safety professional, SWAT Teams, Airsoft, and Paintball radio users.

BATTLE ZERO

Modular Bone Conduction Headset

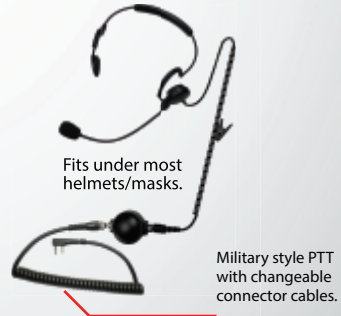

Lightweight Bone Conduction Headset with Military Style PTT. Modular design allows you to easily change components.

TBCH

Tactical Bone Conduction Headset

Heavy duty MODULAR tactical binaural bone conduction headset with noise cancelling boom microphone and bone conduction speakers.

ASSAULT

Dual Throat Microphone

FBI style Tactical Throat Microphone that allows the radio user to transmit in high noise areas and be heard clearly through throat vibrations.

CQB HEADSET

Close Quarters Headset w/ Boom Mic

Affordable Modular Lightweight 'Behind the Head' Headset with noise cancelling Boom Microphone.

PROFESSIONAL MILITARY GRADE HEADSETS WITH HEAVY DUTY CORDS AND PUSH TO TALK.

TBCH PRO S/R

HEAVY DUTY MODULAR TACTICAL BINAURAL BONE CONDUCTION HEADSET

- » Extra PTT button you can mount externally on your finger or weapon.
- » Nexus connector to easily disconnect the headset from the PTT/Downlead.
- » Modular design provides flexible mounting options.
- » Radio connector cords can be easily replaced if radio model changes.
- » Has Kevlar reinforced cables to guarantee reliability.
- » It can be worn with a mask and helmet.
- » Ideal for Tactical Teams, SWAT, and Gang Units.
- » Can be worn with SCBA for Hazmat Response Teams.

Available with M3 , M7 , M12 and K connectors.

NOW YOU CAN USE YOUR BLUETOOTH EARPIECE WITH YOUR 2-WAY RADIO!

WCK WIRELESS COVERT KIT

This radio adapter permits you to use iPhone compatible microphone/earbuds for discreet communications. Wireless finger PTT with Velcro strap to attach to finger or steering wheel. Lightweight, compact and sturdy.

BLUELINK ADAPTERS

Compatible with most major radio brands like:

Motorola, Kenwood, Icom, HYT, Harris/MaCom, Vertex, Nexedge, Baofeng.

[BL-M3]

[BL-M7]

BLUELINK M3 ADAPTER

Works like the rest of the quick releases. I like this as it will allow me to attach a two wire if I am going to be out in the field longer that 10 hours. I don't have to worry about disconnecting anything, it's just ready to switch from wireless to wired.

Shaleana B. Long Beach, CA

BLUELINK LP Mic

The BlueLink Lapel Microphone comes with a clear tube earpiece and can be used with a BlueLink Adapter. Clips onto shirt. USB AC Charger and clear tube earpiece included.

✂ EAR MOLDS

MOLDED EARPIECES

Our Ear Molds are made of hygienic silicone in a clear pink or black color. Vented to allow ambient sound to enter the ear while providing clear audio. Can be ordered INDIVIDUALLY or in BULK 10 Pack and 50 Pack.

Sizing Chart located on page 13.

Sizes: Small, Medium, and Large.

Options: Left and Right.

Semi-Custom ear molds are demanded by the law enforcement because they stay in the ear during active use, allow ambient noise for situational awareness and are comfortable all day long.

✂ EARPIECE ACCESSORY PACK

for CLEAR TUBE EARPIECES

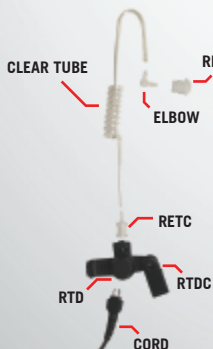

In this Pack you will receive:

- 1 Clear Tube w/ connector
- 1 Ear Mold MR
- 1 Ear Mold ML
- 2 Standard earbuds

✂ COMFORT EEZ REPLACEMENT TIPS

- » Vented to allow for ambient sounds to be heard.
- » Secure fit design stays in place.
- » Easily clean with soap & water.
- » Great replacement for any standard earbud.
- » Available for left or right ear.
- » Small, medium or large sizes.

RET: Standard silicone earbud

CLEAR TUBE: Standard hygienic acoustic clear tube.

RACT-B: Standard black hygienic acoustic clear tube.

ELBOW: Secures ear molds and ear buds to the clear acoustic tube.

RETC: Connects the clear tube to the transducer.

RTDC: Clothing clip with hygienic transducer.

RTD: Black audio transducer that connects to the cord.

RFC: Replacement foam cover for soft hook earpieces.

REPLACEMENT CORDS: for the Silent Earpiece.

Cord length: 14" or 26"

Connector: 2.5mm, 3.5mm, and 3.5mm Threaded.

WE SELL A LARGE SELECTION OF THE MOST POPULAR RADIO BATTERIES WITH VARIOUS CHEMISTRIES.

WE SELL BATTERIES FOR THE MOST POPULAR RADIO BRANDS LIKE:

Alan, Bendix, King, ReIm, EF Johnson, Harris, Hytera, Icom, Jotron, Kenwood, MaCom, Maxon, Motorola, Motorola Tetra, Nokia, Tetra, Novel, Simoco Tetra, Supura Tetra, Tait, and Vertex.

✂ RADIO BATTERIES

We offer a complete and comprehensive product line of high quality two-way radio replacement batteries and chargers. Our two-way radio batteries are designed to be fully compatible with the original equipment.

If you are unable to locate the battery for your 2-way radio on our website please contact us for assistance. Make sure to send us the battery model that you are using and quantity needed for current pricing.

It's best to stick with the same battery chemistry when ordering a replacement battery. Many chargers will not accept a different chemistry from the original battery.

HOW DO I ORDER AN ITEM WITH THE RIGHT CONNECTOR?

First, select the type of microphone or earpiece that you want. Second, locate your radio model on the connector chart on page 15-16.

Examples: If you wanted an Investigator microphone for a XTS 3000 radio, that would be an 'Investigator-M3'. If you want the popular 'quick disconnect' (QD) feature, you would order the 'Investigator-QD-M3'.

WHICH EARPIECE DO I NEED FOR MY SPEAKER MICROPHONE?

The listen only earpieces are available with long 26" cords to connect directly to the radio connector or the 3.5mm threaded M2 connector for any Motorola speaker microphone that has the earpiece port on the radio connector. The earpieces with the short 14" cords are for speaker microphone that have the port on the actual head of the speaker microphone.

HOW DO I BECOME A RESELLER?

If you are interested in becoming an authorized Code Red Headsets reseller, please contact us and we will provide you with the criteria to become a dealer. We support our dealers by developing competitive products that are durable, provide product training, marketing support, and co-op advertising. Our contact information can be found at the bottom of this page.

DO YOU HAVE A WARRANTY PROGRAM?

Yes. Code Red Headsets warrants all products against manufacturer defects in materials or workmanship for a period of one year with the exclusion of ear molds, earbuds, and other replacement parts. The warranty will only be invalidated if there is visible physical damage to the product. If a product does have a problem, e-mail shipping@CodeRedHeadsets.com and we will send a return authorization number and form to you. Send it in and we will determine why it is not functioning properly and repair or replace it if it is a manufacturing or design defect.

HOW DO I CHOOSE MY EAR MOLD SIZE?

Ear Molds fit inside of the Concha area of the ear, which is indicated in gray on the photo.

There are three different sizes of ear molds: Small, Medium, and Large for the Left or Right ear.

Ear Mold Sizes by Concha Height:

- Small is less than 1"
- Medium is 1"
- Large is more than 1"

Medium is the most common size used.
