

EXECUTIVE PROTECTION

STAFF YOUR TEAM WITH CODE RED SURVEILLANCE ACCESSORIES

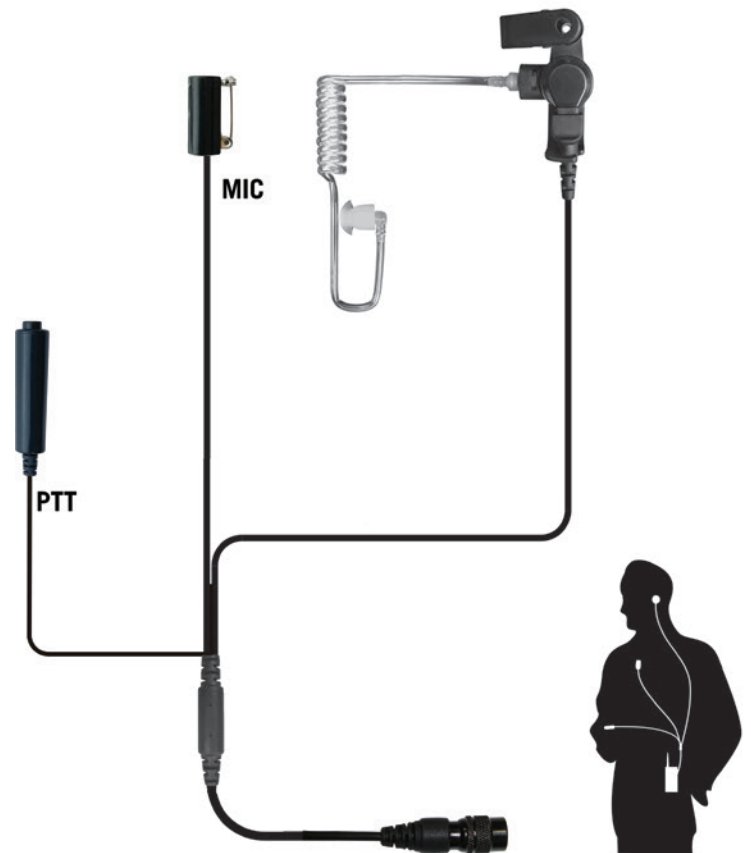

With a growing trend for increased security requirements for larger institutions, the team at Code Red Headsets has identified a need for high quality, reasonably priced 2-way radio communications solutions.

The Executive Three-Wire Microphone is a true stealthy surveillance kit. One wire is the earpiece (just like Sherlock/Investigator), one wire is the microphone, it is a small barrel type that pins inside the shirt, the third wire is a PTT that can be fed down the shirt sleeve to be held in the palm.

EXECUTIVE THREE-WIRE MICROPHONE SURVEILLANCE MICROPHONE

- » Professional grade for the field.
- » Ultimate covert communications
- » Hand held PTT can be easily hidden.
- » Micro barrel condenser mic features a lapel pin which can be hidden inside the shirt/collar.
- » Durable clear tube earpiece which can be worn all day.
